

**REMARKS/ARGUMENTS**

This Preliminary Amendment is being resubmitted in response to the Notice of Non-Compliant Amendment (37 CFR 1.121) dated January 5, 2006, in order to identify the claim that Claim 7 is dependent upon. By this Amendment, the specification is amended, claims 1-13 are amended and claim 18 is added. Claims 1-18 are pending. An Abstract (corresponding to that of the published PCT application corresponding to this application) is attached on a separate sheet. No new matter is added. No claim fees are due since these were paid previously when this application was filed in the U.S. national phase.

Entry of the above-amendment is respectfully requested prior to examination of the application. The English translation (previously submitted on March 3, 2005) of the application corresponds to the application originally filed in Japanese. The above amendment revises the application as translated into English to be in a format more closely corresponding to that customarily employed in U.S. practice and to eliminate multiple dependent claims and correct some typographical and grammatical errors in the specification and claims. Support for new claim 18 can be found in Figs. 4A and 4B. Thus, no new matter has been introduced.

It is respectfully submitted that the application is in good form for initial examination on the merits. Accordingly, prompt and favorable examination on the merits is respectfully requested.

Should the Examiner believe that anything further is desirable in order to place the application in even better condition for initial examination and allowance, the
